

# Worthing Cricket Club Junior Training Guide for Parents

2021 Version 1

Valid 12<sup>th</sup> April onwards

Cricket training and matches are now permitted, providing certain measures are undertaken by the club. This document summarises some of the key points from the guidance provided by the ECB and the Government. However, all participants, parents or carers should familiarise themselves with the latest [Government guidance on COVID-19](#). They should also read the ECB's full guidelines, summary and the club's risk assessment. All of these plus other Covid specific documents can be found in [WorthingCC policies](#).

## BEFORE TRAINING

- In case of inclement weather, our coaches will make a decision at 1730 (latest) as to whether training can go ahead
- All players, parents/carers, officials and coaches/volunteers must undergo a self-assessment for any Covid-19- symptoms. No-one should leave home to participate in cricket if they, or someone they live with, has any of the following:
  - A high temperature (above 37.8°C)
  - A new, continuous cough
  - A loss of, or change to, their sense of smell or taste.

This check should be done before each training session or match. Should any individual have demonstrated any such symptoms, they must not participate. Instead, they should follow NHS and PHE guidance on self-isolation. Anyone who has already been instructed to self-isolate by a health care practitioner or PHE should continue to follow this advice and may not participate.

- Players should arrive ready to train with their own personal hand sanitiser together with a drink which is clearly marked with their name and must not be shared.
- Spectators are not currently permitted. This does not apply to carers for people with disabilities or adults needed to supervise under-18s in a safeguarding capacity.
- Supervising adults must sign in using the NHS App by scanning the QR code provided at the Manor Ground.
- Participants must report to their respective coach/team manager for registration (see map below)

## DURING TRAINING

- To assist with minor injury or welfare issues, the coaches would appreciate if a parent/carer remained in the vicinity of training sessions and matches, particularly for the younger age groups who might need assistance finding toilets etc.

- Supervising adults should not mix with others from outside their household or support bubble. They must also avoid blocking access to the pavilion to allow for easy access to toilet facilities.

#### AFTER TRAINING OR MATCHES

- Efforts should be made to keep socially distant when exiting the training/match venue.
- Hands should be washed at the earliest opportunity and personal equipment should be wiped down with a disinfectant.
- The Club must support NHS test and trace efforts by collecting name and contact information of participants at both training and matches. This information will be stored for a minimum of 21 days in-line with the Government Recreational Team Sport Framework and collected/processed in accordance with the Data Protection Act 2018 and in line with GDPR principles. It will only be used for the purpose of NHS test and trace.
